COVID 19 Update

Club Activities

As you will appreciate the club is having to respond very quickly to an ever changing situation, therefore the messages we send out will continue to change.

Taking into account the latest advice from HM Government, Dart Harbour and feedback from members, we have taken the decision to cease all forms of water activity for the time being. We will continue to review the advice being given and will update you when there is any change.

Membership

As you will appreciate the current closure will place a strain on the club finances especially after the refurbishment of the Gun Room; we would ask you to support your club with the renewal of your membership (subscriptions not changed again this year), in order to ensure that the club will be here for you when the time comes.

In the meantime we will continue to plan for better times, when we can all get together safely and enjoy what we love doing the most.

Keep safe and well.

Tony Baker
